

NEOPOLIA AEROSPACE

Global and made-to-measure solutions for all your projects.

Neopolia Aerospace brings together over 35 businesses and their know-how, and works to meet the needs of the aeronautics market with innovative methods.

Centred around the diversity and complementary nature of its industrial companies, **Neopolia Aerospace** has all the means necessary to bring you a flexible and all-in package for 4 areas of expertise:

→ AEROSTRUCTURES AND SYSTEMS

Industrialisation, manufacture, assembly and fitting of :
Aerostructure sub-assemblies
Systems and equipments sub-assemblies

→ INDUSTRIAL PROCESS

Complete workpackages from small tools to assembly lines

→ DESIGN ASSIST

Optimization of customer designs and contribution to innovation projects

→ PERFORMANCE SERVICES FOR THE INDUSTRY

Product and processes expertises at the closest of our clients

A UNIQUE POOL OF EXPERTISE

- ▶ Design and engineering
- ▶ Calculations and digital simulation
- ▶ Boiler making, sheet metal work, large and small sizes, thick and thin gauge
- ▶ Small and large size machining
- ▶ Materials: metal, composite, and plastic
- ▶ Electricity, electronics, automation
- ▶ Assembly
- ▶ Surface treatment and non-destructive testing
- ▶ Logistics and freight

OUR ADDED VALUE: Industrial optimization

- ➡ **All-round control of the supply chain** and reduction of your supplier interfaces.
- ➡ **A solid and effective production facility:** an overall turnover of €200M for 2,000 employees in 2012.
- ➡ **Pooling of facilities** and flexibility of processes.
- ➡ **Expert handling of project management** with project steering to ensure:
 - ▶ All customer requirements are met.
 - ▶ Excellent service provision: costs, quality, time frames.
 - ▶ Consistency between the various activities (design, manufacturing, assembly, transfer...).
